Introduction

Beamer theme Lagrange is inspired by these two themes

- ▶ Pdfscreen theme Overlay4
- ▶ Keynote theme Drafting

CTAN lion drawing by Duane Bibby; thanks to www.ctan.org.

1 Introduction

2 First Example

3 Customization

First Example

The following is a simple example

```
\documentclass[xcolor={rgb}]{beamer}

\usetheme{lagrange}

\begin{document}

\begin{frame}
  Hello Beamer!
\end{frame}

\end{document}
```

Note that you **need to** use `xcolor={rgb}` option for this theme.

2 First Example

3 Customization

Customization

To change vertical spaces between lines in TOC pages, you could redefine these two commands:

```
\renewcommand{\sectionintochideskip}{10pt}  
\renewcommand{\sectionintocshowskip}{6pt}
```
